

DESCRIPTION

Specialist engineering, fabrication, installation and maintenance services

- 140 professional and trade staff
- turnover of around \$50M p.a.
- completed long term \$100M projects
- agility to commit to sub \$50K projects
- 50 year old Australian company

KEY MARKETS

- Defence
- Nuclear (high precision)
- Mining equipment (mission critical)
- Rail rolling stock (safety & reliability)
- Infrastructure – rail & road (highest certification levels)
- Food machinery (hygiene & production critical)

CERTIFICATIONS

- Quality – AS/NZS ISO 9001
- Environmental – AS/NZS ISO 14001
- OHS – AS/NZS ISO 45001
- Welding - ISO 3834.2 (DIN 2303 - in progress)
- Construction CC2 & CC3
- DISP – Entry Level (in progress)

CAPABILITIES / SERVICES:

- 18,000m² of facilities in NSW and WA
- Engineering, design, drafting & 2/3D modelling
- Material and production traceability
- Fabrication of all metal types - welding of dissimilar metals and exotic materials: quenched and tempered, duplex stainless
- Robotic welding
- 9 & 3 axis CNC machines
- Beamline, plasma cutter, section & plate roller
- Mechanical fitting / assembly
- Surface treatment - blasting & painting
- Plant and equipment maintenance & refurbishment
- Site installation

DISCRIMINATORS

- Capacity for one-off \$25M projects or larger multi-year projects
- Broad array of in-house engineering and trade skills
- Skilled in mild steel, stainless, specialist metals
- Scalable engineering and production facilities
- Defence experience and certifications e.g. DIN2303
- Ability to accommodate smaller projects
- Australian owned

HMAS CHOULES

DEFENCE ENGAGEMENT

- RAN HMAS Choules (SEA3030) - stainless steel exhaust
- RAN Garden Island - stainless steel walkway supports
- THALES - specialised workbench, shelving and tray (ISO Container)
- ARMY (Land155) - bridge build interface support mobile bridging equipment
- ARMY Holsworthy – structural steel training simulator
